Exam:

This **WHMIS** course is a DanaTec program which includes a manual and wallet certificate upon completion. WHMIS takes approximately 3 - 4 hours of classroom time. There is an open book exam to write at the end of the course. A variety of learning strategies are used in this course including discussion, guides/manuals, videos and project materials. WHMIS training can be tailored to the clients specific program needs. OH&S Legislated requirements will be met, at the conclusion of each course participants will be able to apply the knowledge and skills learned.
